

Long-term solutions in dry eye disease

Friday 14 June 2019

11:45–12:45

Uranie Room, Level 3

Acropolis Convention Centre, Nice, France

You are warmly invited to join us at the Santen-sponsored satellite symposium **‘Long-term solutions in dry eye disease’**, which will take place during the European Society of Ophthalmology (SOE) Congress on **Friday 14 June 2019** at **11:45–12:45**.

During this symposium, leading ophthalmologists from across Europe will examine the latest advances in dry eye disease, with a specific focus on ocular lubricants and data supporting the long-term use of ciclosporin A 0.1% CE (cationic emulsion). Case studies will demonstrate how to translate the evidence base to the clinic, and our expert panel will focus on clarifying the implications of the data for the practising clinician.

You will also have an opportunity to discuss real-life concerns and clinical challenges during a Q&A with the expert panel.

We look forward to seeing you there.

Agenda

Long-term solutions in dry eye disease

11:45–12:45 | **Friday 14 June 2019** | Uranie Room | **Acropolis Convention Centre**

Chair: Prof. Steffen Heegaard

Time	Session	Speaker
11:45–11:50	Welcome and introductions	Prof. Steffen Heegaard
11:50–12:00	Cases in focus: the burden of dry eye disease	Prof. Elisabeth Messmer
12:00–12:15	Relieving symptoms: where to start?	Prof. Maite Sainz de la Maza
12:15–12:30	The long-term view: what the evidence tells us about treatment with ciclosporin A 0.1% CE	Prof. Andrea Leonardi
12:30–12:40	Cases in focus: effective management of dry eye disease	Prof. Elisabeth Messmer
12:40–12:45	Q&A, summary and close	Prof. Steffen Heegaard
